

Bankers Systems Features and Benefits

Features and Benefits

FEATURE	FUNCTION	BENEFIT
DYNAMIC DOCUMENTS	Documents in which the text changes according to the specific characteristics of the loan, with the ability to alter some original language	Precise documents that reflect the specific transaction for a clear, precise, understandable end product
EMBEDDED COMPLIANCE MANAGEMENT	Automated compliance check of loan information with embedded legal reference help	The strength and comfort of Bankers Systems' compliance experience
STANDARD TRANSACTION TEMPLATES	Lets you preset data, including some document-specific language, and save it to standardize frequently used transactions	More consistency and fewer exceptions help increase the enforceability of your loan portfolio
FLEXIBLE ORGANIZATIONAL SETUP	Rembrandt Lending can reflect your organizational hierarchy (e.g., holding company, banks, branches, and departments)	Makes implementing new policies and establishing user-access standards easy and efficient
REFLECTS YOUR LENDING POLICIES	Allows you to preset lending policy variables such as fees and charges, compliance settings, collateral list specifications, and operational choices	Reduces the need to input lending policy information into each transaction, which reduces exceptions and helps increase the enforceability of your loan portfolio
CONTROL OVER USER MANAGEMENT	Provides access and limits to all or parts of the system for individuals and definable groups	Provides easily maintained system security and control over lending information and functions
POLICY	Organization and lending policy	Increases consistency throughout your

INHERITANCE	sections are built so all policy information can be entered at the top-level organization and carried out in lower-level divisions	organization and makes expansion into newly acquired branches much more efficient
DESKTOP FLEXIBILITY	Familiar, understandable Windows format allows you to find, arrange, and track your loans
